

Hi everyone!

We wish everyone success with the upcoming exams.

In this newsletter you will find information about the **Excursion to WMC and ECN** and also the upcoming activity **SET Barbecue** and **SET Borrel**.

Just a useful reminder to you, do you fill in the questionnaires about the courses and don't know the outcomes? You can see the results of the course evaluations from [here](#). For instance, you can see the results of 0C903 course evaluation.

Do you also have some news or fun fact you want to share with all your fellow students, send it and we'll try to place it in our next newsletter. Enjoy reading and expect another next month!

The AC-SET (Activity Committee of SET).

EXCURSION TO WMC and ECN

On 17th of May 2011, AC-SET organized the second excursion of this year to WMC (Wind Turbine Materials and Constructions) and ECN- Wind Turbine Testpark. With the participation of 27 SET students, we had an informative and exciting day visiting these important wind turbine facilities.

Due to limitations of the companies, only a limited number of participants could join this excursion. We hope more SET students can join us in future excursions. For those who missed it you can check the video of the day [here](#).

UPCOMING ACTIVITY SET-BBQ

There will be a SET barbecue on June 14th, mark that day on your calendar! It's a perfect opportunity to enjoy the weather together with other SET students, with some delicious food and drinks. You will also have fun time playing games.

We hope everyone will enjoy the time on the BBQ. An email with details of the BBQ will be sent in the following days.

SET student of the Month

Karen GARRIDO
Mexican/ 24
SET 1st Year

Favorite food: macaroni with cheese

Favorite Dutch food: bitten ballen - nee!
Mmm, oliebollen

Ecological footprint (footsize): 37 (small, I know!)

Favorite place in campus: the green area in front of the SC

Most sustainable behavior: not using the dryer when sun is out

Stupidest behavior ever: playing while riding a bike... sometimes you can fall

Non-sustainable subject for you: Electrical Power Engineering

Favorite Subject in SET Master Track: Plasma processing

Life in three words: fun- rock- love

The next SET-borrel will be on Thursday 9th of June starting at 16:00, at TEMA Field (in front of Sportscenter). We would like to invite all of you to enjoy the last borrel of this educational year.

There will also be a volleyball tournament followed by a barbecue organized by **Intermate**. If you want to join, you can find the details about the [tournament](#) and [BBQ](#) (only in Dutch). You can form your own team and can subscribe for that by sending an e-mail to bestuur@intermate.nl.

WEBSITE

We hope everyone found the old exams on our website (<http://acset.isgreat.org/>). Also other information about the AC-SET and upcoming events can be found there. Furthermore, the exams database has been extended. If you have exams that are not on our website, we kindly ask you to send the exams to the AC-SET, so we can add it on the website.

The AC-SET website will not work within the campus of TU/e, sorry for the inconvenience. We are working on a solution for this problem. If you are experienced in website design, please contact us.

The AC-SET email is acset@tue.nl.

Did you know that...

- Jeroen was the most sustainable driver on the Excursion?
- Bart was the least sustainable driver of the Excursion and that he consumed more than 50% more diesel compared with Jeroen?
- Solange was the most sustainable person on the Excursion, she turned off unnecessary lights in coffee room of ECN?
- Ram broke a glass lid and tungsten light during the solar practicum?
- Instructor got mad at Cameron because he made a balloon from gloves.
