

Hi everyone!

The exam week is coming. We wish everyone good luck with their exams, and we want to remind that you can find the previous years' exams on our website.

In this newsletter you will find updates about **SET LASER TAG, SET BORREL, NRG BATTLE, and EIT CONFERENCE.**

As you will read in this newsletter, AC-SET is looking for **new board members**, who are interested in organizing fun activities for fellow students. If you want to be in the board of AC-SET for next year, contact us by sending an e-mail.

Also keep an eye on your TU/e e-mails, as we are planning an **excursion**, and we will announce it by mail. Unfortunately only limited number of people will be able to join. First come, first served!

Do you also have some news or fun fact you want to share with all your fellow students, send it and we'll try to place it in our next newsletter. Enjoy reading and expect another next month!

The AC-SET (Activity Committee of SET).

SET LASER TAG

On 19th of October, ACSET organised SET LASER TAG for SET & SELECT people. 12 master and pre-master students played in three teams. At the end of the league, the winning team was Team 2 with Stef, Rik, Jeroen and Okan. The final round was a game of 6 by 6, the old&new AC-SET team vs. Fresh SET team. The result was as expected, experience won!

The evening did not end with just Laser Tag, the chat continued accompanied with special beers at Bierprofessor. We thank to all participants for the fun evening and hope to see you all in future activities!

ANNOUNCEMENTS

- AC-SET is looking for new board members for 2012. If you are interested in organizing the best events, and do something apart from your studies, send an e-mail to acset@tue.nl and take your place in the next board.
- We are planning a new excursion, and we will announce it soon, so keep an eye on your e-mails.

NRG BATTLE

Lakkumanan Ramu participated to the 3rd round of NRG BATTLE in Groningen on October 7th, and won the first prize with their project "Successfully enabling biogas in households". We congratulate him.

After this result, the number of SET Teams participating to the finals in Groningen, on November 23rd increased to 4. We wish all the teams good luck and success!

EIT Conference: Youth and Entrepreneurship- Drivers of Innovation

There was an Entrepreneurship Conference held at AGH University of Science and Technology in Krakow from 19th to 21st October. Four first year (Patricius Yuwardi Wijaya, Victor Samuel, Stephanie Villegas Martínez and Ruijun Pan), and two second year (Ameer Ali and Yeshambel Girma) SELECT students from TU/e were sponsored by the SELECT program to join the conference.

They participated to the conference, and gained useful information about entrepreneurial topics such as developing ideas, transforming them into a business and securing access to finance. Young entrepreneurs from KIC (Knowledge & Innovation Community) transferred their experiences to the entrepreneurs of tomorrow. They also met other students from InnoEnergy program, entrepreneurs and journalists. After the conference, the students also had time to visit the beautiful city of Krakow and enjoyed every minute of their stay in Krakow.

The next SET-borrel will take place **after the exams on Thursday November 10th** in **GEWIS** (Main Building, Floor 10th HG 10.52) starting at **17:00**.

We would like to invite all of you for a drink, to relax after the exam week, to meet and socialize with other SET students and us.

Did you know that...

- you can have a minus score on laser tag? (Thanks Rik for demonstrating!)
- Okan was the best laser tag player and is officially the coolest guy in SET.
- Jeroen had his finger cut by laser? (well, not really)
- for the first time, more Dutch people than international students were present at the last activity?
- Physical Transport Phenomena is still the most discussed topic!

SET student of the Month

Jaun Galaun
Young Mexican (I'm always young)
SET 3rd Year

Favorite food : Deep-fried grasshoppers with worm salt

Favorite Dutch food: hmmm.... Kaassouffle?

Ecological footprint (footsize): Moctezuma size. (May be +1/2)

Favorite place in campus: Below the Dommel bridge (Unplanned swimming).

Most sustainable behavior: I avoid the use of chemical acids to remove rust, I use chilli sauce instead. (Typical Mexican)

Stupidest behavior ever: Staring at people when walking through a bad neighbourhood.

Non-sustainable subject for you: Flamenco music theory.

Favorite Subject in SET Master Track: Solar Celsa (no typo there)

Life in three words: Gimme the power!

WEBSITE

Almost all of the SET students are familiar with our website (<http://acset.isgreat.org/>). You can find old exams, information about the AC-SET and upcoming events on the website. After the exams, please keep a copy of the questions and send it to us, so we can upload it on the website.

Unfortunately, sometimes this website is not working within the campus of TU/e. Now we are working on a solution for this problem, we have a new domain name, and we are rebuilding the website. It should be available soon enough.
